## About us

Merry Den Care, based in the heart of the Forest of Dean, provides quality care support to people with learning and physical disabilities. Such support is available within the clients own home, within our three supported living homes which have 24-hour domiciliary care. Or within our two bedroomed residential care home.

We provide a range of support and personal care, which allows our clients to be as independent as possible whilst remaining in the comfort of their own home, or living in our supported accommodation We offer a flexible quality service in which you can have complete confidence.

## Our Philosophy

At Merry Den Care we believe that every individual, regardless of ability, has rights which enable him or her to grow and develop to their own maximum potential. These rights are at the very core of our ethos, ensuring an environment where people are valued and where individual choice is respected in all matters.

We will endeavour to assist each individual through ongoing person centred planning and multi agency working to achieve their identified needs. This we achieve by enhancing living skills within the context of the home and community in which they live and by encouraging the joining in of leisure and social activities.

We value each client as an individual; respecting ethnic and cultural differences and this is emphasised in our service, with staff that have time to dedicate attention to offering choices whilst meeting individual needs.

At Merry Den Care our homes have no more than 3 people sharing which helps to maintain the feeling of a real home and we believe our homes would be a pleasant surprise for anyone wishing to visit them.

### **Our Aims**

All staff are appropriately trained to deliver the highest standards of care. A continuous training programme for staff is implemented to ensure that optimum standards are maintained in line with latest developments in care practices, this is monitored through Legislation, Regulations and Commission for social care inspectorate as are all our services.

We work with each individual to manage and reduce anxiety and emotions in order that their relationships are not adversely affected and integration into the community is not prevented.

### **Why Us?**

We want to make a real difference for people coming into the care sector, or already residing in a large care home environment, and wishing to move to a smaller establishment. Many residential care homes and supported living homes are usually quite large, lacking a 'homely feeling'.

We will maintain the dignity, individuality and privacy of every client within a warm, caring environment, always sensitive to changing needs. This will be achieved by following National Care Standards Act 2000.

*Quality care in small, friendly homes*

Leighton House

### Leighton House

Just a short walk from the centre of Cinderford Leighton House is a semi detached residential care home for two people with learning disabilities who require a higher level of care.

### Maydene House
